TECHNICAL SKILLS

Languages: Python · Java · JavaScript · SQL
Web: HTML · CSS · Node.js · Express.js
Data: Pandas · NumPy · Matplotlib · Seaborn
ML / DL: Scikit-learn · Neural Networks · Deep Learning
Tools: Git · Linux · MS Office · Power BI
Concepts: Algorithms · Statistics · Networking · OOP

LANGUAGES

English: Fluent
German: C1 – EPD Certificate
Persian: Native

CERTIFICATIONS

- ▶ AI Programming with Python Nanodegree — Udacity / AWS (2024)
- ▶ Machine Learning – 70h — Pytopia
- ▶ Python for Data Science, AI & Dev — Coursera (25h)
- ▶ Exploratory Data Analysis in Python — DataCamp

PROFILE

Computer Science student at FH Campus Wien, combining a strong technical background with a professional history in medicine. Experienced in full-stack web development, data analysis, and machine learning. Analytical, detail-oriented, and a clear communicator — I bring both precision and adaptability to every project I work on.

EDUCATION

BSc Computer Science & Digital Communications · FH Campus Wien *Sep 2025 – Jun 2028*

– University of Applied Sciences, Vienna

Doctor of Dental Surgery (DDS) · Azad University of Isfahan, Iran *2015 – 2021*

WORK EXPERIENCE

Sales Assistant (Part-time) · Julius Meinl am Graben, Vienna *2024 – Present*

- Customer service in a multilingual, multicultural environment (DE / EN)
- Structured, reliable work execution under pressure

General Dentist · Private Practice, Iran *2021 – 2024*

- High-precision work with strict documentation and data handling
- Complex problem-solving and responsibility for patient outcomes

PROJECTS

Austrian Immigration Platform · Full-Stack · HTML, CSS, JS, Node.js, Express.js *2026*

- Auth, user flows, data handling, frontend-backend communication

Java Chatroom Application · OOP · Client-Server · Networking *2026*

- Multi-user chat system with socket programming in Java

Image Classifier · Deep Learning · Python · Neural Networks *2024*

- Transfer learning model trained and evaluated as Udacity Nanodegree final project
